The 360 degree panorama photos of the LNG Terminal in winouj cie.

Watch closely the winouj cie LNG terminal. A virtual sightseeing tour includes peeking into the inside of the greatest gas storage tanks in this part of Europe.

Panoramic view of the entire LNG Terminal is now available in 360° technology.

Watch the collection of 360° panorama photos of the LNG Terminal in winouj cie.

The combined series of photos give the viewer the impression of a real-life view of the facility (with perspective maintained). The complete panorama consists of 16 images stitched together, digitally processed and edited. 360 ° panoramic pictures create an impression of a dive in the LNG tank's interior or a live tour around the construction site.
