

Mission Vision

Polskie LNG S.A. Mission Statement

Our mission is to substantially contribute to secure and reliable supply of LNG to Polish and European gas system as well as cooperation with other entities towards the objective of developing competitiveness on gas market.

Polskie LNG S.A. Vision Statement

Our vision is to become a prominent participant in the European natural gas transmission system and thus to contribute to state's energy security by means of ensuring reliable operation of the LNG Terminal. This will be accomplished by a competent team maintaining highest international standards and performing in concordance with the principles of sustainable development, by means of diversification of services as well as by virtue of implementation of clean, safe and modern technologies.
